Portfolio: nabilahlw.github.io/nabilahulwana-portofolio | Surakarta, Indonesia

Undergraduate Information Systems student at Universitas Duta Bangsa Surakarta with experience as a Techno Functional on Epicor Kinetic ERP, covering functional support for the Manufacturing, Subcontract, Purchasing, Inventory, and Shipping modules, data analysis using BAQ, and development of the internal web app Spex (Next.js, TypeScript) integrated with the Epicor REST API. Strong foundation in Data Analytics and Data Engineering (SQL, Python, ETL, PostgreSQL, Kafka, Tableau, Power BI), plus more than 3 years of experience in education that built communication skills and the ability to explain technical topics simply.

Education

Universitas Duta Bangsa Surakarta - Surakarta, Central Java *2023 - Present*

Bachelor of Information Systems (Undergraduate Student)

Relevant Coursework: Database Systems, Systems Analysis & Design, Web Programming, Mobile Application Development, Data Analytics, Business Intelligence, Software Engineering, Data Mining, Artificial Intelligence

Work Experience

TK Al Madinah Kartasura - Surakarta *June 2023 - July 2025 | Full-Time*

Classroom Teaching Assistant

- Developed learning programs and study modules in line with the curriculum together with the lead teacher.
- Managed the classroom, daily schedules, and student progress reports, and coordinated regularly with parents.

KodeKiddo Surakarta - Surakarta *October 2025 - Present | Part-Time*

Coding Tutor

- Taught programming fundamentals using Scratch and Arduino to elementary and junior high school students.
- Guided students in developing interactive storytelling, animation, and game programming projects.

Seventh Education - Surakarta *January 2026 - March 2026 | Part-Time*

Academic Tutor

- Taught grade 7 and 8 junior high school students English and Indonesian.
- Guided understanding of grammar, course material, and problem-solving strategies to prepare for the TKA exam.

PT. Logika Sistem Bisnis - Remote *August 2026 - November 2026 | Full-Time*

Techno Functional

- Provided functional support for Epicor Kinetic ERP (Manufacturing, Subcontract, Purchasing, Management, Shipping, Inventory) to finance, purchasing, warehouse, shipping, and production users.
- Analyzed the root causes of transaction issues using tracker menus, the system, reports, and BAQ data, then prepared safe correction procedures for non-technical users via chat and phone.
- Contributed to the development of Spex, an internal web app for a manufacturing client using Next.js, TypeScript, and Tailwind CSS, integrated with the Epicor REST API v2 and BAQ, including an operational report menu with PDF export and several custom features in the Job module based on the conditions and rules of Epicor ERP.

Technical Projects

FHV Vehicle Trip Analysis – NYC (2025)

- Tools: SQL · Python · Tableau
- Analyzed more than 600 thousand Uber & Lyft trips, built a trip-duration prediction model using Machine Learning, and created an interactive dashboard using Tableau.

Integrated Campus Management System

- Tools: Laravel · PHP · MySQL · JavaScript · HTML · CSS · Midtrans
- Developed an integrated campus information system covering Academic, Human Resources, and Finance modules. Implemented CRUD features, user authentication, a relational database, and Midtrans payment gateway integration using Laravel.

TMDB Movie End-to-End Data Pipeline

- Tools: PySpark · dbt · Kafka · ClickHouse · Streamlit
- Built a data pipeline with Medallion architecture, real-time data streaming, and an interactive dashboard.

DQFashion Sales Analysis (2017)

- Tools: Microsoft Excel · Power Query · Power Pivot · DAX
- Performed data transformation and modeling of transaction data, built an interactive dashboard, and generated business insights.

Certifications & Training

- Data Analyst International Bootcamp — SmartPath | August 2025
- English Certificate: B2 Upper Intermediate, 60/100 (CEFR) — EF SET | July 2025
- Training: Data Classification & Summarization Using IBM Granite — IBM SkillsBuild | September 2025
- Training: AI Agent for Data Analysis — IBM SkillsBuild | May 2026
- Data Engineering Bootcamp: Batch 7 — rubythalib academy | April 2026
- Top 100 Finalist, Hackathon: Retail Crisis & Recovery Visualization — DQLab | May 2026

Skills

• **ERP & Business Systems**
Epicor Kinetic ERP | BAQ (Business Activity Query) | REST API

• **Data Analytics & Visualization**
Microsoft Excel | Tableau | Power BI | SQL | Python & Libraries

• **Data Engineering**
ETL Development | PySpark | Apache Airflow | Apache Kafka | dbt | Google BigQuery | PostgreSQL

• **Web & Mobile Development**
Next.js | TypeScript | Tailwind CSS | PHP | Laravel | JavaScript | HTML | CSS | MySQL | Flutter | Firebase

• **Soft Skills**
Analytical & Critical Thinking, Problem Solving, Attention to Detail, Communication, Teamwork, Adaptability, Quick Learner, Time Management, Documentation, Continuous Learning Mindset, Creativity, Initiative.

• **Languages**
Indonesian | Native, English | B2 Upper Intermediate, Arabic | Intermediate
